

Audioengine 5 Premium Powered Bookshelf Speaker System

Upgrade your audio

**"Power and Substance...
the oasis in the MP3 Desert."
-Home Theater Magazine**

Features:

- USB power charging (ComboPort)
- 2 audio inputs
- Built-in power amps in left speaker
- Rear panel AC outlet
- Front panel volume control
- Kevlar woofers for super low end
- Silk tweeters for smooth highs
- Subwoofer outputs
- High-quality speaker connectors
- Auto-sleep power saving mode
- Hand-finished cabinets
- Video shielded
- 3-year warranty
- All cables included

Compatible With:

- Audioengine W1 and W2
- AirPort Express and other wireless systems
- iPod and all other music players
- Internet radio and network music systems
- Apple Universal Dock and other docks/remotes
- Desktop computers, laptops, notebooks
- Flat panel TVs
- Mobile phones and PDAs
- CD and DVD players
- Videogame consoles
- Digital radio and satellite receivers
- All products with 1/8" mini-jack or RCA outputs!

Specifications

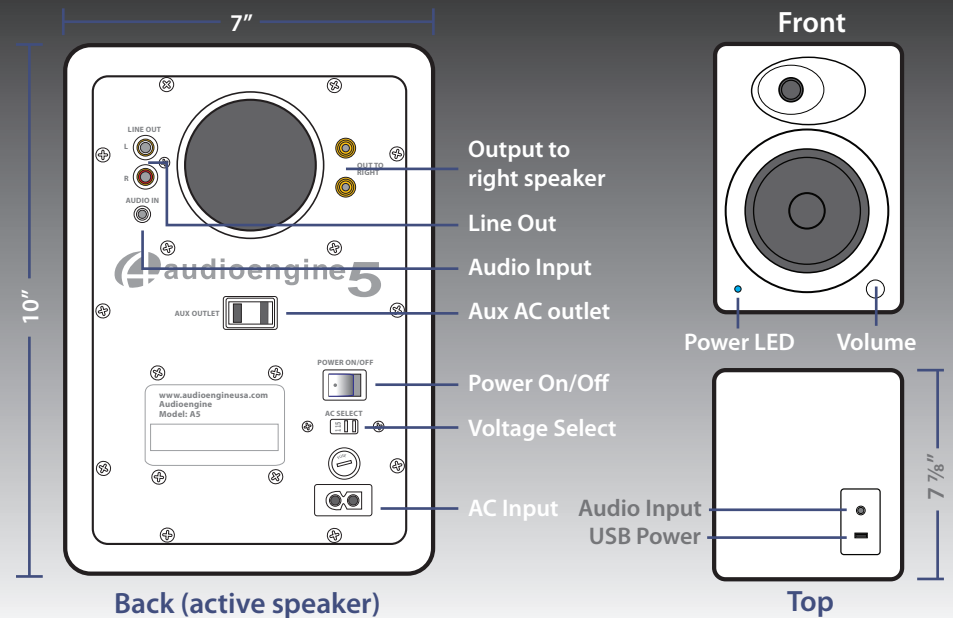

- Power output: 50W RMS/ 75W peak per channel (AES)
- Inputs: (2) Stereo 1/8" mini-jack
- Outputs: USB Type A (power only), RCA line out
- Main voltages: 115/230V, 50/60Hz manually switchable
- Weight: 6.4Kg/ 14lbs (left), 4Kg/ 9lbs (right)
- Amplifier type: Dual Class AB monolithic
- Signal-to-noise: >95db (typical A-weighted)
- THD: <0.05% at all power settings
- Crosstalk: <50db
- Freq. response: 50Hz-22kHz ±1.5db
- Input impedance: 10K ohms unbalanced

Included Accessories

- AC power cable
- 1/8" audio cable, 2 meters (~6.5 ft)
- (2) 1/8" audio cables, 20 cm (~8")
- 1/8" to RCA "Y" cable
- USB power extender cable, 1 m (~3.3 ft)
- Speaker wire (16AWG), 3.75 meters (~12.3ft)
- Drawstring cable bags
- (2) High-density foam protectors/sonic pads
- Setup Guide

Materials and Construction

- 1" thick MDF cabinet
- 5" Kevlar woofers with advanced voice coils
- 20mm silk dome tweeters with neodymium magnets
- Torroidal power transformers

Audioengine 5N Premium Powered Bookshelf Speaker System

Upgrade your audio

EcoSmart

Audioengine 5N (A5N) - All of the simple but useful features and same signature sound of the award-winning A5 wrapped in rock solid and beautifully hand-finished bamboo.

Bamboo is an excellent alternative to hardwoods and the dark bamboo used for the Audioengine A5N cabinets is not a stain, but achieved through a specialized heating process. As the wood is pressure heated, the sugar compounds inside the bamboo are "carbonized" which in turn darkens the bamboo to a rich caramel color. Awesome sound, great looks, eco-friendly, and panda-safe.

Features:

A5N Eco-Friendly Features:

Made from renewable and sustainable solid bamboo - no veneers
No stains or paint used - naturally "carbonized" finish sealed with hand-rubbed water-based satin polyurethane

Other green facts and features:

- Audioengine products are now 100% lead-free and meet the EU's RoHS initiative
- All speaker cabinet materials use environmentally-friendly binders and resins
- Formaldehyde-free adhesives are used in our cabinet assembly
- All Audioengine products meet ENERGY STAR requirements in standby
- Limited use of plastics in our products
- Easy-to-recycle packaging
